Free morning- ski, spa, and family time
-OR-
Optional Skills Lab Courses

Tuesday, February 9th, 2027

8:00am – 12:00pm – OPTIONAL 60-minute Airway Labs
Led by Drs. Daniel Hubbard and Justin Cook, This intensive 60-minute skills lab provides highly personalized, hands-on airway instruction in a small-group setting. With each instructor working with just 1–2 learners at a time, participants will work through airway techniques, devices, optimization strategies, and challenging clinical scenarios using a combination of simulation and individualized coaching.
Four sessions are offered, with only 4 learner spots available per session. ***Advance registration and an additional fee are required.***

8:00am- 11:30am **– OPTIONAL 90-minute Obstetric Emergencies Lab**
Led by Dr. Joline Bronson, this interactive 90-minute skills lab uses simulation-based stations to build confidence in managing high-risk obstetric emergencies in the emergency department. Participants will rotate through scenarios covering normal vaginal delivery, cord prolapse, postpartum hemorrhage, shoulder dystocia, breech delivery maneuvers, postmortem Cesarean section, and postpartum hypertension/preeclampsia, with emphasis on rapid recognition, intervention, and appropriate blood pressure management. Sessions are offered at 8:00 AM and 10:00 AM, with only 8 learner spots available per session. ***Advance registration and an additional fee are required.***

12:00pm - 1:00pm - Lunch with Exhibitors

1:00pm - 1:55pm - Dr. Ran Ran and OHSU Critical Care Fellow
